

Press release 21.04.2011

SECUREX 2012.

In the spring of 2012, we invite you to the most important in Poland and Central Europe meeting of the security industry. Organized on April 23-26 SECUREX exhibition will provide you with the knowledge of how to ensure your safety and the safety of your loved ones and how to protect your property against burglary, theft and other vandalism.

SECUREX International Security Fair is the greatest event for the security industry sector in Poland. For many years, it has enabled the verification of the offer and the presentation of the latest developments in the field of detection and eradication of crime systems, mechanical and electronic security systems, or visual surveillance systems (CCTV) and property protection. Participants of previous editions have learned that SECUREX provides a forum to exchange views and establish business contacts with representatives of the Polish market and foreign partners.

About SECUREX 2010

The eighteenth edition of the SECUREX 2010 fair turned out to be a record in terms of exhibition space rented, the number of the novelties presented and professionals visiting the fair. With space of over 10,000 m², the offer in the field of detection and eradication of crime, mechanical and electronic security systems, video surveillance systems (CCTV) and property protection was presented by 260 manufacturers and distributors. During the fair an impressive number of over 260 new products and services had their market release. For four days SECUREX Fair, as well as held in parallel INSTALACJE, SAWO, WODOCIĄGI and KOMINKI Fairs were visited by nearly 30,000 of professionals in the field.

What will 2012 bring?

The next year's edition, although it may seem quite remote, is in the process of activating the organization team of the fair right at the moment. The work of the team focuses largely on the preparation of interesting events accompanying the exhibition. Undoubtedly, **Championship of Polish Installers of Alarm Systems** prepared jointly with the Polish Chamber of Security Alarm Systems will be held. Międzynarodowe Targi Poznańskie cannot imagine the Exhibition without **Polish Master Alarm Technology** competition, organized by "POLALARM" Polish Association of Producers, Designers and Fitters of Alarm Systems. We also hope to continue our cooperation with the **police**. Last year's series of conferences promoting the latest trends in the field of security as well as the presentation of the police equipment proved to be very successful - says Joanna Jasińska, the SECUREX project director. The program also envisages new events and broadening the exhibition to interesting thematic spaces. Details will be announced later, however.
